TOWNSFOLK

Talismonger
On your 1st night, choose a non-Traveler player. You learn a good and evil character. One is correct, and when they die you become the other.

Rigger
On your 1st night, choose a non-Traveller: you learn how many character types there are amongst that player and their neighbours (except Travellers).

Face
Each night*, you learn if you and the Demon both voted on the same nomination.

Decker
Each night*, you choose a player: you learn a reminder token placed next to that player's character token (if any).

Shifter
Each night*, choose an alive player. If good, they die & the Demon doesn't kill tonight. One good player registers as evil.

Bodyguard
Each night*, choose a player (not yourself): they are safe from the Demon tonight.

Sensitive
Each night, choose a player who is not next to you: you learn if at least 1 of their alive neighbours is evil. There is a good player that registers as evil to you.

Analyst
Each night, you learn how many players' abilities worked abnormally (since dawn) due to another character's ability.

Detox
Each night, choose a player: they are protected from being drunk or poisoned until dusk.

Seer
Each night, choose 2 players: you learn if either is a Demon. There is a good player that registers as a Demon to you.

Fixer
Each day, you can publicly invite an alive player adjacent to a member of the Fixer's crew to join the crew. When an evil player joins, the entire crew is executed.

Dzoo-noo-qua
You have the ability of the recently killed executee. If they are evil, you are poisoned until a good player dies by execution.

Adept
Once per game, at night, choose a good character: gain that ability. If this character is in play, they are drunk.

Street Samurai
Once per game, during the day, publicly choose a player: if they are evil, they die.

Latent
You think you are an Outsider, but you are not. The 1st time an evil player chooses you with their ability, it fails and you become a not-in-play Townsfolk. **[+0 or +1 Outsider]**

OUTSIDERS

Ghoul
You think you are a Townsfolk and gain their ability. Players seated next to you are poisoned. If you are "mad" about being the Ghoul, you might die tonight.

SINless
Evil knows you are the SINless, the Storyteller may lie to you and you can register as any character.

Loose End
When you die, the Demon chooses a player: they learn that player's character.

Otaku
The abilities of drunk or poisoned players yield false information. When you die, 1 player is drunk from now on.

Invae
When you are executed, that night the Demon chooses a living good player: they become an evil Minion, or refuse and die, even if for some reason they could not. They learn which Minion only if they accept.

MINIONS

Mr. Johnson
On your 1st night, choose a player. If you die, they turn evil that night and learn you are Mr. Johnson. If 5 or fewer players are alive, you lose this ability. **[-1 or +1 Outsider]**

Spoof Command
Each night, choose 2 players: tonight, every player who chooses the 1st with their ability chooses the 2nd instead.

SURGE
You do not know what your ability is. Each night, choose whether to activate it.

Convergence
Each night*, guess the character of every other player. The 1st time you are all correct, play for 1 more day: if the Demon is not executed that day, your team wins.

Each night, you get 1 nuyen & may earn more by completing the Storyteller's objectives. Each night, you may spend nuyen: 2 to poison a player, 3 to learn a player's character, or 4 to choose a player who dies.

DEMONS

Shedim
Each night, Minions choose the Shedim's host. They are evil, "the Demon", and have no ability. Good players die when the Shedim leaves them. **[+1 Minion]**

Black Widow
Each night*, choose a player: they die. 1 living player knows you. The 1st time that player nominates and executes you, they become the Black Widow instead. **[-1 Outsider]**

Killswitch
Each night*, choose a player: they die. On your 1st night, choose a player: they have a cortex bomb. When the bombed player dies, one of their living neighbours dies too.

Ghilani
Each night*, if no one died today, choose a player: they die. You start by choosing a player: they are infected. Infected players are poisoned, and if executed, infect their good living neighbours. **[+1 Outsider]**

FABLED & LORIC

Djinn
Use the Djinn's special rule. All players know what it is.

If the Talismonger is chosen as the player who knows the Black Widow, they are never shown Convergence as their evil character.

The Shifter's Faux Paw cannot be killed by the Street Samurai.

Sentinel
There might be 1 extra or 1 fewer Outsider in play.

Spirit of Ivory
There can't be more than 1 extra evil player.

Bootlegger
For the Spirit of Ivory, the Shedim's host never counts as an extra evil player.
